Thanks for all the time and effort you have spent over the last couple of weeks in order to assist our faculty and staff in meeting their first technology goal of creating web pages. I know how much patience was necessary to convince people that the process is not a difficult one. I've received so many positive comments regarding your demeanor and sincerity in working with our faculty and staff. It's highly welcome to observe a group of educators talents come out when help is displayed in such a professional manner. Your ability to work as a member of an organization, your well organized manner, and your concern for making this a streamlined process were obvious to all who worked with you.

You are a tremendously capable person and easy to work with. I can always expect a professional job from you, no matter what the task, and never need to worry about the quality of your decisions. The type of reinforcement you are providing our faculty and staff adds to their self worth regarding the use of technology. Let's trust that with the development of these web pages our parent and teacher communication will also be enhanced.

Again, I sincerely value your contribution and appreciate the extra time spent helping to establish web pages for our faculty and staff.

Sincerely:

Kerry R. Leiby
